Performance Score Summary

Each indicator or indicator subpart is scored using a 3-point scale. In some cases, institutions may qualify for an additional 0.5 for achieving a certain level of improvement over past performance. In 2002, systemic scoring procedure revisions led to fewer indicators contributing to the overall score. Of the 37 indicators used in past years, all are still measured - some assured through institutional policy, some measured through existing scored indicators, and some monitored but not scored. For more detailed explanation of these changes consult Performance Funding Workbook, September 2000, Year 5 and its supplement, September 2001, Year 6 at www.che400.state.sc.us select Performance Funding, then Performance Funding Workbook.

Interpreting Overall Score

Comparing the average score on applicable indicators to the maximum 3.00 possible produces the percentage score shown in the upper right hand corner. Institutions within the same sector whose percentage is in the same range as shown below are considered to be performing at similar levels.

Scale for Overall Scoring Category

Substantially Exceeds	95% to 100% or 2.85 to 3.00
Exceeds	87% to 94% or 2.60 to 2.84
Achieves	67% to 86% or 2.00 to 2.59
Does Not Achieve	48% to 66% or 1.45 to 1.99
Substantially Does Not Achieve	33% to 47% or 1.00 to 1.44

"Performance Funding" in SC began with Act 359 of 1996, effective July 1, 1996, requiring that the SC Commission on Higher Education (CHE) measure annually each public institution's performance in various areas and base allocation of state appropriated dollars on performance. Each year, CHE in cooperation with institutions and other stakeholders has worked to refine the system implemented in 1996 in an effort to ensure and improve the quality of SC's public colleges and universities so they will be globally competitive. Data and scores for indicators used to allocate FY 2002-03 dollars follow. Yearly revisions and differences across and within sectors make comparisons across performance years and institutions difficult. This year, CHE improved the measurement system by strengthening the focus on indicators best reflective of each sector's mission and reducing redundancy among indicators. Using its CHE worked with institutions and others in identifying the 13 or 14 indicators now being used in determining the performance score as those most related to institutional and sector missions. As noted below, indicators not scored are either monitored on a cycle or are measured through existing scored indicators. **For a better understanding, please see CHE's website at www.che400.state.sc.us to access a detailed guide to the system and measurement (Performance Funding Workbook, Sept 2001) and additional data details by institution.**

DATA and SCORING KEY: Below are details for each indicator measured in Performance Year 2001-02, including: the measurement timeframe for this year's performance, historical data, current year's data, the standard used in judging performance, indicator subpart scores, and the single indicator score. Since July 2000, CHE has set standards for similar institutions based on national, regional or state data; data from peer institutions or past institutional performance. For most indicators, performance is judged using a 3-point scale and comparing it to a standard that is expressed as a range. A score of "2" is awarded if an institution is at or within the range. Performance outside the range in the desired direction merits a "3" or *Exceeds*, while performance outside the range in the undesired direction receives a "1." Additionally, 0.5 points are awarded to scores of 1 or 2 for some indicators if performance an identified level of improvement over past performance. Performance on other indicators is judged by determining institutional compliance with policies or practices. Compliance is expected, and a score of 1 indicates non-compliance. In limited cases, CHE may award scores based on analysis of an institutional appeal requesting special consideration. To determine overall performance as summarized on page 1 and at the end of this report: scores displayed for each indicator in the far right or last column are averaged; the average places the institution in 1 of 5 performance categories; and funding is allocated based on the category, not the individual score or average.

Institution achieved compliance on **1C**, *Approval of a Mission Statement*. **1D&E** is defined uniquely for each institution based on an institutional goal and annual targets to be achieved over 3 years.

Status of other indicators: Indicator **1A**, *Expenditure of Funds to Achieve Institutional Mission*, is measured through Indicator **5A**, *Ratio of Administrative Costs to Academic Costs*.

Nursing faculty are excluded for 5 years beginning with Fall 2001 data. Exceptions to terminal degrees as defined by SACS are included for faculty holding the first professional degrees including the JD for those teaching law or the MD, DMD, or PharmD for those teaching in colleges of medicine, dentistry or pharmacy. **2D** measures of average faculty salary by rank, except instructor.

Critical Success Factor 7, Scored Indicator Notes: 7A measures the rate at which a cohort of first-time, full-time degree-seeking students graduate in 150% of program time. 7D measures the percent of total students taking certification examinations who pass the examination. For all exams, except teacher certification exams, first-time test takers only are considered. Exams vary across institutions due to differences in programs. For institutions with teacher education programs, the PRAXIS PLT scores are excluded. Middle school pedagogy examination (PLT 5-9) scores continue to be excluded to allow for development/adoption of curricula to support this new certification area. For those with dental assisting programs, DANB exam scores are excluded.
